AGRO VENTURES GLOBAL HOLDINGS

AGRO VENTURES GLOBAL HOLDINGS HAS EXPERIENCED REMARKABLE GROWTH IN SRI LANKA, EXPANDING ITS OPERATIONS FAR BEYOND ITS ORIGINS AND ESTABLISHING A STRONG GLOBAL PRESENCE. DRIVEN BY A COMMITMENT TO ADVANCING SUSTAINABLE DEVELOPMENT WORLDWIDE, THIS GROWTH BEGAN WITH THE PARENT COMPANY, AGRO VENTURES PLANTATIONS LIMITED, AND HAS SINCE EVOLVED INTO A DIVERSIFIED PORTFOLIO. TODAY, THE GROUP INCLUDES AGRO VENTURES EXPORTS, AGRO VENTURES PROPERTY DEVELOPMENT, THE VANILLA SHOP, THE VANILLIAN INC., HASARA INTERNATIONAL, MATALE DISTRICT AGRICULTURE DEVELOPMENT AND EXPORT CO-OPERATIVE SOCIETY LIMITED BANK, AND SEVERAL OTHER ENTITIES DEDICATED TO STRENGTHENING THE AGRICULTURAL SECTOR—PARTICULARLY IN PREMIUM VANILLA AND SPICE CULTIVATION.

THIS EXPANSION HAS ALSO INSPIRED AGRO VENTURES' STRATEGIC ENTRY INTO THE MEDIA INDUSTRY, RESULTING IN PLATFORMS SUCH AS ELEVARE MAGAZINE, MEGHA TV, RATHU IRA NEWS, BUSINESS MEDIA INTERNATIONAL, AND VENTRAX LIMITED. THESE OUTLETS NOT ONLY HIGHLIGHT THE COMPANY'S PRODUCTS BUT ALSO SHARE INSIGHTS, INNOVATIONS, AND GLOBAL TRENDS IN AGRICULTURE AND SPICES. BEYOND AGRICULTURE, AGRO VENTURES CONTINUES TO BROADEN ITS IMPACT THROUGH NEW INITIATIVES DESIGNED TO UPLIFT ADDITIONAL SECTORS. ONE OF ITS LATEST VENTURES FOCUSES ON PROMOTING ECO-TOURISM IN SRI LANKA, SHOWCASING THE ISLAND'S NATURAL BEAUTY AND CULTURAL HERITAGE WHILE CREATING SUSTAINABLE TRAVEL EXPERIENCES THAT EMPOWER LOCAL COMMUNITIES AND PROTECT THE ENVIRONMENT.

OUR GLOBAL OUTREACH EFFORTS ALSO INCLUDE STRENGTHENING PARTNERSHIPS ACROSS B2B AND B2C MARKETS, PROUDLY PROMOTING SRI LANKAN FLAVORS—ESPECIALLY OUR RENOWNED VANILLA—WORLDWIDE. THROUGH THESE COLLABORATIONS, AGRO VENTURES CHAMPIONS ETHICAL SOURCING, SUSTAINABILITY, AND EXCEPTIONAL QUALITY ACROSS ALL INTERNATIONAL MARKETS. AT AGRO VENTURES, OUR JOURNEY IS FUELED BY A PASSION FOR QUALITY, SUSTAINABILITY, AND INNOVATION. AS WE CONTINUE TO EXPLORE NEW FRONTIERS AND EMBRACE EMERGING OPPORTUNITIES, WE REMAIN COMMITTED TO EXCELLENCE IN EVERY ASPECT OF OUR OPERATIONS—FROM PLANTATION MANAGEMENT AND SPICE EXPORTS TO TOURISM AND GLOBAL CULINARY EXPERIENCES. JOIN US AS WE REDEFINE STANDARDS AND SHAPE A BETTER, MORE SUSTAINABLE FUTURE ACROSS INDUSTRIES WITH AGRO VENTURES.

**Every product tells a story of origin, care,
and responsibility brought to life through
the strength of Agroventures.**

"AS THE FOUNDER OF AGROVENTURES PLANTATIONS, I AM FILLED WITH IMMENSE PRIDE AND GRATITUDE FOR THE JOURNEY WE HAVE UNDERTAKEN TOGETHER. FROM THE VERY INCEPTION OF THIS COMPANY, OUR VISION WAS CLEAR - TO REVOLUTIONIZE SRI LANKA'S AGRICULTURAL LANDSCAPE BY FOSTERING SUSTAINABILITY, EMPOWERING COMMUNITIES, AND DELIVERING EXCEPTIONAL PRODUCE TO THE WORLD.

TODAY, I STAND HUMBLER BY THE STRIDES WE HAVE MADE AND THE IMPACT WE HAVE CREATED. OUR COMMITMENT TO SUSTAINABLE PRACTICES HAS NOT ONLY YIELDED PREMIUM CROPS BUT HAS ALSO PRESERVED THE PRECIOUS ENVIRONMENT THAT SUSTAINS US. WE HAVE DEMONSTRATED THAT RESPONSIBLE AGRICULTURE CAN BE A POWERFUL FORCE FOR POSITIVE CHANGE, BENEFITTING BOTH FARMERS AND CONSUMERS ALIKE."

GLOBAL VISION

AGRO VENTURES PLANTATIONS LIMITED

SRI LANKA

AGROVENTURES PLANTATIONS (PVT) LTD IS A PIONEERING COMPANY DEDICATED TO THE CULTIVATION OF VANILLA AND OTHER EXPORT-ORIENTED SPICES. OUR VISION IS TO GENERATE **USD 1 BILLION FOR SRI LANKA BY 2030** THROUGH SUSTAINABLE AND LARGE-SCALE VANILLA CULTIVATION. OUR DIVERSE RANGE INCLUDES HIGH-QUALITY SPICES, VANILLA, AND VARIOUS OTHER CROPS METICULOUSLY GROWN TO MEET THE STRINGENT STANDARDS OF INTERNATIONAL MARKETS - WHILE EQUALLY SERVING SRI LANKAN CONSUMERS. OUR UNWAVERING DEDICATION TO SUSTAINABILITY IS AT THE CORE OF OUR OPERATIONS. WE EMPLOY ADVANCED, RESPONSIBLE FARMING PRACTICES THAT ENSURE MINIMAL ENVIRONMENTAL IMPACT WHILE MAXIMISING YIELD AND QUALITY - INTEGRATING CUTTING-EDGE TECHNOLOGY WITH TRADITIONAL FARMING KNOWLEDGE.

AS INDUSTRY LEADERS, WE PRIDE OURSELVES ON OUR ETHICAL APPROACH TO AGRICULTURE - CREATING VALUE FOR CUSTOMERS, COMMUNITIES AND THE ENTIRE ECOSYSTEM THROUGH FAIR LABOR PRACTICES AND INVESTMENT IN LOCAL ECONOMIES. AGROVENTURES PLANTATIONS OFFERS UNPARALLELED INVESTMENT OPPORTUNITIES FOR THOSE PASSIONATE ABOUT ETHICAL AND ENVIRONMENTALLY CONSCIOUS AGRICULTURE, PROVIDING SIGNIFICANT RETURNS WHILE PROMOTING SUSTAINABILITY AND ECOLOGICAL BALANCE.

OUR COMMITMENT

SRI LANKA'S LEADING
PREMIER PLANTATION

10 YEARS OF EXCELLENCE

SUSTAINABILITY FIRST

We are committed to preserving the environment and conserving natural resources through responsible, sustainable agricultural practices that protect the land for future generations.

UNCOMPROMISING STANDARDS

We maintain the highest standards of excellence in the cultivation and production of all our agricultural products — from soil preparation to final export.

BUILT ON TRUST

Honesty and transparency govern every action we take, guiding us in building long-lasting, trustworthy relationships with our customers, investors and stakeholders.

COMMUNITY GROWTH

We strive to uplift local communities by providing meaningful livelihood opportunities, investing in people, and supporting sustainable development across the regions we operate in.

– OUR CORE VALUES –

WHAT WE STAND FOR

Four principles that guide everything we grow, build and believe in.

GLOBAL STANDARDS & INTEGRITY

Certified Purity

Uncompromising Quality from Soil to Shelf

As a member of IFOAM and a world leader in biodynamic agriculture, our systems are audited to meet EU, USDA, and JAS organic regulations, ensuring every product is traceable and 100% chemical-free.

CONSUMER EDUCATION

What does it mean to be Truly Certified?

To be "Certified Organic", every single stage - from soil preparation to distribution - must comply with stringent global regulations. It is a massive financial and operational commitment.

Beyond the costs, these logos establish trust. They are a visual identity for the organic farming sector, ensuring that when you see a logo, you are seeing a promise of health, sustainability, and ethics.

✓ VERIFIED EXCELLENCE

No blind belief here.

Our commitment to organic integrity and fair trade is backed by the world's most stringent auditing bodies. Every product we ship is a promise kept.

TIMELESS BEAUTY AND HERITAGE

DISCOVER OUR PLANTATION ESTATES & MANUFACTURING PRODUCTION PLANTS

AVONLEAHILL ORGANIC & BIODYNAMIC TEA FACTORY DIYATHALAWA

The factory is located over 4500 feet above sea level, on two acres of certified organic and biodynamic land in Diyathalawa (located in the Uva High Grown region of Sri Lanka). Some of our best teas are produced at this facility, with leaves being supplied from our small farmer groups under the fair trade concept.

SPICE FACTORY PANNAMPITIYA

Situated in the central dry-zone of Sri Lanka, this is the main location of our spice processing activities. Due to the increasingly high demand and high volume of spices we have been exporting over the last decade, this is a site of continual re-engineering for capacity enhancement. This allows us to undertake the complete production process for the total range of our organic spices.

JAMESVALLEY ORGANIC GREEN TEA FACTORY GAMPOLA

This factory, located in Gampola, Kandy exclusively produces organic green tea, with tea leaves supplied to us by our small farmer groups within the fair trade model. The facility is the first Sri Lankan factory to be awarded the highest rank of three star by the Sri Lanka Tea Board under the Ceylon Quality Certificate (CQC) in 2009 for excellence in factory organization, cleanliness, consistency of operations, workers' discipline and motivation. In addition, this factory is also the first in Sri Lanka to have the capability to produce tea bags from green leaf in one production line, and has special flavoring units to maintain high quality standards of all our flavored teas. Further to this, a special green tea named 'Ceylon Cha', invented by our chairman, Dr. Sarath Ranaweera is produced at this facility using a special methodology patented by its inventor.

KINGSLYNN ORGANIC TEA FACTORY

Situated 6000 ft. above sea level in the upcountry wet zone of Sri Lanka, Kingslynn resides in a truly remote locale on the steep slopes of the USA highlands. Due to its unique location, Kingslynn enjoys an unique climate that enables the cultivation of some of the world's best tea. This is the home to the production of our finest, patented tea, Heaven Scent. This project is affiliated with the local church that provides shelter to women that have been the victims of sexual abuse and/or domestic violence. As such, much of the proceedings from the tea that is sold from this site is diverted to provide assistance to the church to continue their commendable service to the local people. In addition to tea, European herbs such as rosemary, lemon balm, sweet basil & vegetables (carrot, leeks & beet root) are also produced by the Kingslynn estate.

COCONUT PROCESSING FACTORY MAKANDURA

Our chief coconut processing facility at Makandura is equipped with the complete production lines for the production of canned coconut milk, virgin coconut oil, extra live virgin coconut oil (one of our most in-demand, exclusive products that is in limited manufacture), coconut water, coconut cream and low fat desiccated coconut, with the use of patented processing facilities. The facility is currently equipped with UHT (Ultra High Temperature) processing line which is capable in aseptic coconut milk and coconut water production.

MILLING AND DRYING FACILITIES PANNAMPITIYA

At this location, we have a separate facility to carry out the milling of all spice varieties which are required in powder form.

At Pannampitiya, we also have a separate facility to exclusively carry out the drying of fresh herbs such as lemongrass, gatukola/centella, and curry leaves. All these centers are within close proximity to one another to make the transport of materials across facilities more efficient.

FROZEN HERBS PROCESSING FACTORY- PANNAMPITIYA

The newest addition to the Pannampitiya roster was the result of a strategic decision to diversify our product range from dry forms to fresh frozen forms. A fully-fledged, state of the art factory which is certified for BRCGS currently functional at this location, equipped with the modern technology of Individual Quick Freezing (IQF). The very rapid freezing leaves the cellular structure of the produce intact, so that once its thawed, the cell composition is restored, along with the freshness, flavor and nutritive value. A large variety of items (e.g., fresh fruit, veggies and herbs) can be processed at this plant. Our frozen food processing project was the recent recipient of the a very large world bank grant and loan for a landmark world bank project for Sri Lanka. Through this very comprehensive program, a great deal of further improvement is expected to take place to everything from the automation of our production processes, to the betterment of quality of life of the farmers that supply to the processing plants.

ECO PLANET ORGANIC FERTILIZER PROCESSING UNIT NAULA

One of our most exciting projects, the EcoPlanet Fertilizer unit was initiated to play the role of introducing new organic agriculture inputs, technology and knowledge to the Sri Lankan agriculture industry to develop and assist the Sri Lankan organic agriculture. Located in Naula of the central dry zone of Sri Lanka, the fertilizer production unit is also home to a beautifully landscaped organic farm, where the lush fruits of our labour truly surround us. This unit provides agriculture extension services and organic agriculture consultancy services for farmers and producers who are interested in using organic soil inputs like organic fertilizers and organic liquid manure. These services are mostly focused on large and medium scale land owners who expect to convert their lands to organic lands that conform to international organic standards. Our chairman once stated that there is no point achieving the motto of the agricultural growth, for with the collapse of one group, another will always rise to take its place. Indeed, the focus should be on providing farmers with a product of natural properties of the same price, that is also more ecologically sustainable and ethical. As such, these long years were spent by our research and development teams, searching for, testing and growing specific soil microbes that no longer exist in our chemically striped soil. We have now finally isolated a microorganism whereby to integrate these microbes to the soil, and develop a very special, certified organic fertilizer (not merely compost). This enables us to put our chairman's vision to practice, by increasing the yield of conventional lands by providing better solutions than the use of chemical fertilizers. Indeed, studies have shown that the plant maturity rate is lower and the yield is higher with the use of our Eco Planet Fertilizer compared to conventional agrochemicals. Perhaps pleasing to this fact, over 70% of the buyers of this product are conventional/agricultural farmers in the vicinity of Sri Lanka. This unit was also recently opened for touring for interested visitors.

Crafted by Nature. Refined for the World.

Every product begins with carefully selected natural ingredients and is thoughtfully crafted to deliver exceptional quality with a timeless touch.

AGRO VENTURES Vanilla Trails

SRI LANKA'S MOST AUTHENTIC AGRI-TOURISM ODYSSEY

By ELLEVARE Magazine - International Edition

The real Sri Lanka, guided by real people

The heart of Vanilla Trails is not the buildings. It is the people of Matale.

Villagers who have tapped toddy for generations. Mothers who know the forest by heart.

Partners who guide guests through living vanilla forests with a pride that needs no translation.

Visitors walk alongside them among vines heavy with green vanilla beans.

The experience is not created. It's real. You feel the soil under your feet, hear the crack of branches, and listen as these custodians of the land explain pollination, curing, harvesting, and the rituals that keep this delicate crop alive.

In these forests, guests don't just observe vanilla farming. They live it.

A trail whose luxury meets earth

The Agroventures estate stretches across rolling hills, hidden waterfalls, secret hotspots, and thick forests scented with vanilla. Jackfruit houses, thatched, and warm earth after rain, guests arrive through the great Silence, and Welcomes Matale, a lushness experience that feels like stepping into a modern jungle kingdom.

Inside the estate, boutique villas and forest cabanas rest gently between the trees—architecture that doesn't compete with nature but blends into it. Open terraces overlook the third Landmarks of beautiful, living temples. Sunlight filters through leaves like liquid gold.

Every detail, from the arches here to the food—celebrates Sri Lanka's agrarian soul.

*This is not a resort.
This is not a plantation.
This is a destination born
from nature, culture, and
the people of the land.*

The luxury of stillness

Beyond exploration,
Vanilla Trails
is a sanctuary.

Guests spend afternoons lying in riverfront lounges, listening to the water drift past like a soft lullaby. Others relax on wooden decks built above the valley, reading, meditating, or simply doing nothing.

For travelers exhausted by concrete cities, this stillness is the truest luxury.

Evenings bring something magical: drumbeats echo through the valley as traditional Kandyan dancers perform beneath bamboo groves. It's not a show. It's a cultural blessing, a tribute to the land and the visitors.

A new chapter for Sri Lankan tourism

Agroventures Vanilla Trails™ is more than tourism. It is a movement.

- A movement to uplift rural communities.
- To celebrate authentic agriculture.
- To protect forest landscapes.
- To bring the world to Sri Lanka's hidden heartlands.

Every visitor who walks the Vanilla Trail becomes an ambassador for Sri Lankan agriculture, culture, and hospitality.

The future: global agri-tourism, born in matale

Agroventures envisions Vanilla Trails to become one of Asia's top eco-luxury agritourism destinations, blending:

Heritage • Nature • Agriculture • Wellness • Experience

With 1,200 acres under cultivation and thousands more planned, the vision is bold but rooted in authenticity.

Matale is becoming the world's newest vanilla capital. And Vanilla Trails is its crown jewel.

A journey you don't just see you feel

For the international traveler, Agroventures Vanilla Trails is a revelation.

It is the untouched Sri Lanka. The pure Sri Lanka. The soulful Sri Lanka.

A place where a simple cup of toddy becomes a memory, where a vanilla bean tells a story, and where luxury is not marble or chandeliers but the freedom to live, wander, and belong.

This is more than a destination. It is an awakening.

Agroventures Vanilla Trails™ Matale, Sri Lanka Where nature welcomes you home.

"Vanilla is more than a spice; it's a storyteller of nature's patience and human artistry."

A Legacy Centuries in the Making

From ancient civilizations to modern artisans, the journey of vanilla is as rich and complex as its flavor.

ORIGINS

C. 1400 BC

Ancient Origins

From the Totonac people of Mexico to the Aztecs' sacred 'xocolatl', vanilla has been treasured for centuries. Once the "Queen of Spices" in royal European courts, it now thrives in Sri Lanka's rich soils.

CULTIVATION

365 DAYS

Cultivating Purity

Vanilla is intricate. Each orchid blooms once a year and must be hand-pollinated within hours. The beans undergo a months-long curing process — killing, sweating, drying, and conditioning.

HERITAGE

SINCE 2020

Global Value, Local Pride

As global demand for natural flavors rises, Sri Lankan vanilla is earning admiration. We take pride in representing Sri Lanka's emerging vanilla identity to the world.

HERITAGE

A Legacy Rooted in Heritage

We partner with Sri Lankan farmers who hand-pollinate every orchid. Our vanilla is known for its soft smokiness and deep aroma — cherished by connoisseurs worldwide.
